Customised Courses in Mental Health

Customised Courses for your Organisation!

Does your organisation need further education in an area of mental health, but you can't find a course to meet your specific needs? The Institute can help!

As well as providing training from its premises in Parramatta, the Institute also has extensive experience in the design and implementation of education programs according to the specific needs of the contracting agency—a customised course in an area that your organisation needs.

Over the past year, the Institute has conducted specifically tailored programs for a range of Area Health Services, non government organisations, government departments and private companies, at a variety of intra and inter state locations.

Some examples of customised courses include:

Introduction to Infant Mental Health
Mental Illness and Substance Abuse
Suicide Assessment and Management—Intensive Skills
Working with Young People
Attachment Theory and Practice
Orientation to Child and Adolescent Mental Health
Supervision Skills
Assessment in Mental Health—Intensive Skills
Carer Advocacy Training
Consumer Advocacy Training
Counselling Skills

Nursing Scholarships

The NSW Nursing Scholarship Fund is offering post graduate scholarships for Nurses for 2004. The Institute courses are accredited with the Higher Education Act and are eligible for this funding.

The scholarships are open to Registered Nurses working in the Public system.

Further information is available on Ph: 9391 9813 or email: nscholar@doh.health.nsw.
